OBJECTIVE

Results-driven **Data Analyst & Machine Learning Enthusiast** with expertise in **SQL, Python, Power BI, Tableau, and Cloud Technologies**. Skilled in **data cleaning, statistical modeling, forecasting, ETL pipelines, and business intelligence**. Experienced in working with **large datasets (100K+ records)**, **automating workflows**, and **building predictive models** to drive business insights. Passionate about applying **Machine Learning, NLP, and Cloud Computing (AWS, Azure, Snowflake)** to solve real-world problems.

SKILLS

- **Programming & Scripting:** Python (Pandas, NumPy, Matplotlib, Seaborn)
- **Database Management:** SQL (Joins, CTEs, Indexing, Query Optimization) | MySQL | MS SQL Server
- **Data Visualization:** Power BI | Tableau | Excel (Pivot Tables, Dashboards, DAX, Charts)
- **Data Analytics Techniques:** Data Cleaning | Exploratory Data Analysis (EDA) | Statistical Analysis | A/B Testing | Data Wrangling
- **Data Engineering & Cloud:** AWS (S3, Lambda, Redshift), Azure (Synapse, Data Factory), Snowflake, Google Cloud, ETL Pipelines
- **Tools & Platforms:** Jupyter Notebook | Google Colab | GitHub | Kaggle Apache Airflow, Hadoop, Spark
- **Business Intelligence & KPIs:** Data Governance | KPI Analysis | Forecasting | Revenue Optimization
- **Machine Learning & AI:** Regression, Classification, Clustering, Time-Series Forecasting, NLP (VADER, TextBlob)
- **Soft Skills:** Problem-Solving | Critical Thinking | Effective Communication | Team Collaboration

EXPERIENCE

NEOMETRIX DEFENCE LTD. | PROJECT ENGINEER & DATA ANALYST

February 2023-Present

Noida, Uttar Pradesh

- Led data-driven advancements in Defence Aviation projects for Indian Airforce, HAL, DRDO-GTRE, Army, and Navy, ensuring efficient documentation and approvals with DGAQA, CQAE, and DQAN.
- Conducted statistical analysis and forecasting models on project timelines, reducing delays by 30%.
- Built interactive Power BI and Tableau dashboards, improving visibility of financial and operational KPIs.
- Extracted and transformed large datasets using SQL and Python, enhancing reporting accuracy by 99%.
- Designed predictive models for project planning, leading to 25% improvement in efficiency.

EDUCATION

MEERUT INSTITUTE OF ENGINEERING AND TECHNOLOGY [MIET, Meerut]

August 2019 - June 2023

B. TECH IN ELECTRONICS AND COMMUNICATION ENGINEERING (ECE)

AKTU | CGPA: 8.11

MEERUT PUBLIC SCHOOL, MEERUT | CBSE

CLASS XII (PCM) | Percentage: 81.6%

April 2017 – March 2018

CLASS X | CGPA: 10

April 2015 – March 2016

PROJECTS

Job Market Trends Analysis (Data Science Jobs in India) 🔗

Tech Used: Python, Pandas, Seaborn, Matplotlib, Hypothesis Testing, BeautifulSoup

- Analyzed 500+ job postings to uncover trends in hiring, salaries, and skill demand via Web Scrapping.
- Applied EDA & Hypothesis Testing to compare salary distributions & experience impact.
- Built visualizations & insights to guide job seekers & employers in decision-making.

Zomato Data Analysis 🔗

- Analyzed 50,000+ restaurant records using Python (Pandas, NumPy) & SQL for data-driven insights.
- Applied data cleaning & statistical analysis, improving data accuracy to 95%.
- Created interactive Tableau dashboards, revealing a 15% higher rating correlation with online orders.
- Identified top-performing cuisines & pricing strategies, leading to a 20% increase in restaurant partner satisfaction.

Ola Booking Data Analysis 🔗

- Developed a Power BI dashboard analyzing 100,000+ ride records for business intelligence insights.
- Utilized DAX measures & SQL queries to track booking trends, cancellation rates, and revenue patterns.
- Identified peak demand patterns, resulting in an 18% improvement in driver allocation efficiency.
